

Guides for Double Ladder and Trough

These expansion guides are used to retain two side by side trays, while allowing tray movement due to thermal expansion. Use 1/2" hardware.

Expansion Guide Bolts for Channel

These 3/8" guide bolts are used to retain 4" and 6" wide Husky Channel to the support, while allowing thermal expansion movement.

	Zinc Plated	HDGAF
Catalog No.	SGB-GU	GSGB-GU

Hold Down Clips/Expansion Guides for Channel

These clips hold 4" and 6" wide Husky Channel to a lower support channel or bracket and can be used as an expansion guide with a W-5 washer placed under the base. (W-5 washers sold separately) Use 3/8" hardware.

Tray Type	Mill Galv.	SS 304	SS 316	HDGAF
All Channel	SHDC-GU	4HDC-GU	6HDC-GU	GHDC-GU

Hanger Clip Set for Flange In Trays

The two-piece Husky Trough and Husky Ladder hanger is used in conjunction with the 1/2" hanger rod and eliminates the need for separate horizontal support members and hold down clips. (Part # is for one top and bottom set—not for use on Husky way).
